

Easterseals Wisconsin Camps COVID-19 Plan (revised 6/2/2021)

**Procedures will be reviewed and modified as needed based on authoritative sources*

Campers:

- Sessions will be subject to changes or cancellation at any time.
- Please contact your Health Care Provider to determine if camp is a good fit for your camper and family at this time. (Please note, you will need an updated health history and physical, just like past years).
- Each camper will be required to complete a 14 day pre-camp screening on CampDoc Medical Software, which will include temperature, symptoms, and exposure checks. Without this screening completed, campers will not allowed to attend Camp.
- Children 8 years old and younger will be required to leave camp if they arrive with a rash.
- Campers will be asked to wear masks to the greatest extent they are able.
- Campers will have their temperature checked at least once daily.
- Camper groups will be in separated cabins for sleeping and those sleeping in large dorms will have designated bathrooms.
- There will be minimal camp trips.

Check in/Out:

Respite:

- During both arrival and departure, only one guardian is allowed to accompany each camper. The guardian's temperature will be checked before leaving their vehicle and must wear mask at all times while on camp property.
- Upon arrival at Camp for Sunday Check-In, each Camper will be tested for COVID using a rapid nasal swab test. Results from the test take approximately 15 minutes, during which time the Camper(s) and caregivers/guardians will remain in their vehicle until their time for check-in occurs. If the COVID rapid test is positive, the Camper will not be able to attend Camp.
- Campers and guardians will be directed to enter the building for check in with Camp staff.
- During check in, luggage will be dropped off in the lodge, sanitized then brought to cabins by staff. During departure, luggage will be brought to the lodge. This ensures no guardian enters any cabins on camp.
- Medications and Nurse Check/in will be at a designated location
- Pick up will be between 11 am and 1 pm on Friday.

Wawbeek:

- During both arrival and departure, only one guardian is allowed to accompany each camper. The guardian's temperature will be checked before leaving their vehicle and the guardian must wear a mask at all times while on camp property.
- Upon arrival at Camp for Sunday Check-In, each Camper will be tested for COVID using a rapid nasal swab test. Results from the test take approximately 15 minutes, during which time the Camper(s) and caregivers/guardians will remain in their vehicle until their time for check-in occurs. If the COVID rapid test is positive, the Camper will not be able to attend Camp.
- Campers and guardians will be directed to enter the building for check in with Camp staff.
- During check in, luggage will be dropped off in the hallway of Van Wie or the Quad (formerly the male dorm), sanitized, then brought to camper rooms by camp staff. During departure, luggage will be brought back to the hallway. This ensures no guardian enters any sleeping quarters.
- Medications and Nurse Check/in will be in the designated area.
- Pick up will be between 11am and 1pm on Friday.

Staff:

- Staff will be required to complete a two week temperature, symptom, and exposure check before attending a camp session, and are encouraged to wear masks and comply with physical distancing outside of camp.
- Staff will wear masks at all times on camp, with the exception of eating, drinking, sleeping, swimming, and during their own personal care. It is acceptable to remove the mask if staff is alone in one area.
- Staff will be provided face shields as required.
- Staff will clean and sanitize all touchpoints in living spaces throughout each day.
- Staff will have their temperatures taken and recorded daily.
- Staff will inform the directors of any symptoms throughout the session.
- Staff will be required to take their temperatures and monitor symptoms daily when camp is not in session. Temperatures and symptoms are expected to be uploaded into the CampDoc system.

Programming and Equipment:

- All program areas are to be cleaned and sanitized after each use
- Programming that involves the whole group will utilize physical distancing of groups.

Food Service:

- Food service staff must wear masks and gloves at all times.
- Food for campers and staff will be plated in the kitchen by staff wearing masks and gloves at each meal.
- Camper groups will have assigned tables/seating for the weekend to encourage physical distancing.

Health Care:

- Medications will be available at the Nurses Station medication windows at the scheduled medication times.
- Treatments needed at camp will be completed in the space the Camp Nurse deems most appropriate.
- Nurses will monitor staff and campers' temperatures at least once daily.

Cleaning:

- We will open windows and spend as much time outside as possible.
- Touchpoints and all program supplies will be sanitized throughout the week.

Suspected COVID-19 Cases:

- If a camper or staff member presents with symptoms of a possible COVID-19 infection, they will be immediately quarantined in a building away from other campers and staff. An evaluation will occur to determine extent of the illness and concern for COVID-19 infection. Consultation with our Medical Team will occur to determine if the Camper or Staff person may stay at Camp or if they need to leave Camp. Campers and staff affected by the exposure will also be sent home to quarantine as advised. Affected areas will be immediately closed down for extended cleaning. If there is a known positive case or high-risk exposure the decision for Camp remaining open will be made in consultation with our Medical Team and local Health Officials.
- If a camper who left Camp calls and reports they have a positive result for COVID-19 within 14 days of camp attendance, notifications and testing will be determined by consultation with the health department and our Medical Team.
- If full-time staff are showing symptoms of COVID-19 they will be isolated immediately and sent in for testing.
- The Columbia County Health Department will be notified of any suspected Covid-19 cases at camp.

Campers:

- Any visitor coming to camp will need to pre-register prior to their arrival. Only visitors who are fully vaccinated and provide documentation will be approved for visiting.
- A 14 day pre-camp screening, including temperature, symptoms, and exposure checks is required. Without this screening completed, visitors will not be allowed to attend Camp.
- Though vaccinated, visitors will need to comply with mask use, daily temperature logging, and physical distancing requirements for the duration of their stay. All staff coming within 6 feet or less physical distance of the visitor at any time will need to maintain strict mask use.
- If a visitor who has left Camp begins to display COVID positive symptoms/test result up to 14 days after their time at camp. They are requested to call and report they have a positive result for COVID-19 within 14 days of camp attendance, notifications and testing will be determined by consultation with the health department and our Medical Team.
